Submission Requirements
You must read and acknowledge that you've completed the requirements below before proceeding.

☑ The submission file is in PDF file format, preferably generated by pdfLaTeX.

By submitting a paper to ETNA, the authors are implicitly stating that the content of the paper is new, it has not been published elsewhere, and it is not beeing considered for publication elsewhere.

Submitted manuscripts should include a line numbering. This can be achieved, for instance, by using the LaTeX package lineno and adding the following code to the LaTeX file preamble: \usepackage{lineno} \linenumbers
